

Sample RAG Knowledge Base Document

This is a sample document created for learning Retrieval-Augmented Generation (RAG). Section 1: Introduction RAG combines retrieval of relevant documents with language model generation. It is useful for question answering, chatbots, and knowledge systems. Section 2: Devices Device A: To reset the device, hold the power button for 10 seconds. Device B: To reset the device, go to settings and click 'Factory Reset'. Section 3: Troubleshooting If your device is not working: 1. Restart the device. 2. Check the battery. 3. Update the firmware. Section 4: Notes This document is intentionally simple so that you can: - Load it using a PDF loader - Split it into chunks - Generate embeddings - Perform similarity search
